

Health and Safety Manager openings – East Chicago, IN and Millington, TN

Join Tradebe Environmental Services, a global hazardous waste processing company with global operations. Tradebe USA's motto is "Reducing greenhouse gases and lowering carbon footprints for our customers nationwide." We are a rapidly growing company and are looking for energized, innovative individuals who believe in making a difference. If you like responsibility and autonomy in a collaborative environment, this job is for you.

Main purpose of job:

- Responsible for the implementation and monitoring of all aspects of the Health and Safety Program at a hazardous waste processing facility and fuel tank farm.
-

Duties/Responsibilities:

- Conduct root cause accident investigations and develop and track corrective actions.
 - Implement and manage the Health and Safety and Emergency Action plans, including managing first aid/emergency medical response and drills.
 - 24/7 response to incidents/coverage
 - Administrator the Workers' Compensation program.
 - Schedule and maintain medical monitoring.
 - Manage personal air and noise monitoring results.
 - Perform facility Health and Safety audits and recommend corrective action.
 - Conduct hazard assessments to determine personal protective equipment.
 - Respond to agency, management, facility and employees' health and safety concerns.
 - Assist in issuing and maintaining all plant safety supplies, including PPE.
 - Assist in reviewing accidents reports and near misses.
 - Issue and maintain employee uniforms.
 - Maintain fire system inspections.
 - Implement random drug testing program.
 - Facilitate safety meetings.
 - Other duties as assigned.
-

Qualifications/Education:

- Bachelor's degree in science, industrial hygiene or a related field preferred.
 - Certified Safety Personnel (CSP), and/or Certified Industrial Hygiene (CIH) designation preferred.
 - Must successfully complete Hazwoper training.
 - Must complete an OSHA Hazwoper physical examination and be cleared to wear respirator.
 - Ability to travel up to 25%.
-

Experience:

- Knowledge of OSHA and DOT Regulations.
- Knowledge of Process Safety Management (PSM).

- Minimum of five (5) years experience in health and safety program management in a hazardous waste or industrial processing environment.
 - Experience with confined space entry and tank cleaning operations.
 - Experience with DISA, ISN, PICS databases is a plus.
 - Two to five (2 to 5) years' supervisory experience.
-

Skills:

- Capable of handling multiple projects
- Attention to detail
- Computer literacy with Microsoft office applications i.e., Excel.
- Ability to solve complex problems and develop solutions.
- Design and facilitation of training materials.

Note: The interview process will include a plant tour that requires a follow up corrective actions spreadsheet and 2-3 slide Executive Summary.
